

GREEN IS THE NEW GREY

LIVING SHORELINES

**Wednesday February 22nd
6pm – 8pm**

**Rahway Library
2 City Hall Plaza, Rahway**

This workshop by Dr. Miller will explain what a living shoreline is and talk about how living shorelines benefit our coastal communities

Join the Rahway River Watershed Association in welcoming Dr. Jon K. Miller, Research Associate Professor of Coastal Engineering at Stevens Institute of Technology, for a workshop on Living shorelines. Dr. Miller's research is focused on living shoreline projects and the application to shoreline stabilization and ecosystem restoration in the northeast.

Cost: \$10

Become a member of the RRWA and get in free!
